

Employment History

Sky | Osterley, London, UK

Software Engineer

March 2026 – Present

- Earned an early promotion in recognition of strong technical performance and ownership, continuing in the same team.
- Led cross-team feature delivery from design through production alongside Product Managers and Solution Architects.
- Integrated OpenTelemetry tracing into Spring Boot services, exporting telemetry to Sky's Kafka-based observability platform and visualising insights through Grafana dashboards backed by ClickHouse.
- Mentored junior engineers, shared technical knowledge, and conducted code reviews to uphold engineering best practices and coding standards.

Associate Software Engineer

Jan 2025 – March 2026

- Joined the EMS Hydra team, developing Spring Boot RESTful APIs for Sky and Comcast platforms.
- Built scalable backend services supporting millions of customers across international markets.
- Delivered features within a distributed micro-services architecture, collaborating across engineering teams.
- Followed strict Test-Driven Development using JUnit, Cucumber and WireMock to ensure reliable product delivery.
- Contributed to production releases, API enhancements and platform maintenance.

Graduate Software Engineer

Jul 2024 – Jan 2025

- Developed AI-powered digital twins using Python, causal modelling and OpenAI APIs.
- Built interactive applications using Streamlit, Gradio and custom React components.
- Strengthened software engineering practices through automated testing and object-oriented design.
- Delivered features in Agile Scrum teams using iterative development and Kanban workflows.

Software Intern

Jul 2023 - Aug 2023

- Demonstrated exceptional problem-solving abilities by delivering complex software solutions in Swift.
- Primarily developed a reference app used by Sky employees.
- Converted internship into a permanent role through exceptional performance and dedication.

Education

University of Warwick | BSc Computer Science | Coventry, UK

Sep 2021 - Jul 2024

- Graduated with a Second Class, Upper division (2:1) Degree.

Greenford High School | A-Levels | Greenford, UK

Sep 2019 - Jul 2021

- Obtained A-Levels in Mathematics (A*), Computer Science(A) and Physics (A).

Courses

Fundamentals of Data Science (Technical) | Southampton University

Jun 2022 - Jul 2022

- Completed a certified data science course provided by Southampton University.
- Utilised Python libraries such as MongoDB and Bokeh to collect, manage and store data.
- Acquired foundational knowledge of statistics and data science concepts such as linear regression.

Additional Experiences

Warwick Punjabi Society | President

- Directed a 14-member executive team in coordinating events, transport and activities for 120 + members.
- Responsible for the health and safety of 120 people at multiple social and charitable events.

Warwick Entrepreneurs | Head of Technology

- Enhanced Society operations and led a software team to create Societies' first ever website (<https://warwickentrepreneurs.co.uk>).

Cyber Centurion | Team Member

- Partook in a nationwide A Level School competition, exploring the vulnerabilities of the Ubuntu, Windows and Windows Server OS.

Jack Petchey's Speak out Challenge | Speaker

- Spoke on the importance of freedom of speech at a national platform.

Hayes Cricket Club | Captain and Active Member

- Captain of Hayes CC 3XI
- Former Captain of under 17s and under 15s colts teams. Playing Adult's semi professional cricket since the age of 15.
